Why can't I decide, why my feelings I hide? Always screwing with my mind, that thorn in my spine Oh sure, it feels fine, wasting all our time In the back of my mind, a thorn in my spine

Wait! to see it before my eyes Why! do I run away?

Looking all the time at your face so blind Feeling uptight, always the same fight Hey man now decide, go ahead take your time Kissing all the time, that thorn in my spine

Wait! You can only see one side Why?! Play yourself out 'dat way? Why?! You and me always hang Wait! Weren't you my friend?

The pain in which I could not feel!!!

Hey man look inside, now you need your own life Remember me guy? That thorn in your spine Waiting all the time, I'm doing mighty fine Remember me guy? That thorn in your spine
