

## Bring Us Pints of Beer

Korpiklaani

Bring us pints of beer  
if you don't drink, you can leave  
bring us pints of beer  
we gonna drink now and here

We've been around the world  
We've devoured endless roads  
we've seen many towns,  
can't remember all of those

Sometimes it's so hard  
but we can't change ourselves  
we are the journeymen  
and born to live this way

Bring us pints of beer  
if you don't drink, you can leave  
bring us pints of beer  
we gonna drink now and here

We don't know about real work  
we might not be good-looking  
this is the only song we know  
these are the cards for us

Comfort from bottles,  
cheers from beers  
the guitars are our weapons  
and we know how to kill  
so...

Bring us pints of beer...
