

Anxiety

Krewella

Human garbage - maybe I'm just trash
Maybe pasts the past but I keep looking back
Let's restart it - shit is going too fast
Let's go way back back it was green like cash
Fuck the money - we can all get sad
Put my life in a bag - got a tank full of gas
Kinda funny - it don't matter if I crash
When running all the reds - aw yeah

My friends got xannies for anxiety
Some people are allergic to sobriety
I just need something for my sanity
It's like I'm fucking screaming but quietly
Sometimes it's honey down the cavity
Cause I would rather live in a fantasy
I think I'm in love with the tragedy
I just need a fuckin cure for the gravity
It's got me going like - oooh

Human goddess - with a devil in my head
Monster underneath my bed - gotta put this shit to rest
If I'm honest - it's like the older I get
Feels like I'm more of a mess
Tear my heart out my chest
I don't remember I don't when was the last time
I let this river of emotion start a landslide
I'm done suppressing this shit
It's the realness I miss
Oh this pain might be bliss

My friends got xannies for anxiety
Some people are allergic to sobriety
I just need something for my sanity
It's like I'm fucking screaming but quietly
Sometimes it's honey down the cavity
Cause I would rather live in a fantasy
I think I'm in love with the tragedy
I just need a fuckin cure for the gravity
It's got me going like - oooh

I've got this nervous condition
Yeah I wish that I didn't
Cause there's a riot inside of my head and I couldn't fix it
It's just the way that it's been
Ever since I was ten
And Mom I know you always worry that I'll lose it again
The days move on and I'm still lost
Where you are far from the start
Give me a call I'm hanging on
I'm hanging on
I'm hanging on
I'm hanging on

My friends got xannies for anxiety
Some people are allergic to sobriety
I just need something for my sanity
It's like I'm fucking screaming but quietly

Sometimes it's honey down the cavity
Cause I would rather live in a fantasy
I think I'm in love with the tragedy
I just need a fuckin cure for the gravity
It's got me going like - oooh
