

Baby, Won't You Wait Until The New Year

Kris Allen

Baby, why're you doing this on Christmas Eve
Saying words to me that I don't wanna believe
Oh oh oh, baby please, don't go
If there ain't a way that I can change your mind
And all I'm asking for is just a little time
Oh oh oh, before you let me go

Baby, won't you wait until the New Year
Before you tell me that we're through
Before you go and tear the love we have in two
'Cause when I look back on Christmas
I don't want it to lose its spark
Baby, won't you wait until the New Year to break my heart

When I see your Christmas tree all lit up
I don't want to think about you're breaking up with me
Baby, can't you see
Oh, when I see the carolers singing outside
I don't wanna think about you're telling me goodbye
So that's why

Baby, won't you wait until the New Year
Before you tell me that we're through
Before you go and tear the love we have in two
'Cause when I look back on Christmas
I don't want it to lose its spark
Baby, won't you wait until the New Year to break my heart

Oh, baby if I can't have you
Well, don't you take my Christmas from me, too

So baby, won't you wait until the New Year
Before you tell me that we're through
Just another week until you tear our love in two
'Cause when I look back on Christmas
I don't want it to lose its spark
Baby, won't you wait until the New Year
Baby, won't you wait until the New Year
Baby, won't you wait until the New Year to break my heart
