

Sittin' in the corner with my girls (girls)
Doin' what I wanna
You come in and you're with someone else (oh my God)
I can tell you wanna
Be seen, but I already know this movie
You think that I'm
Big mad 'cause you out here with your new bae
I laugh

I just wave
I just wave
I just wave
I just wave
'Cause what you thought it was ain't a damn thing
I just wave
I just wave (I wave)

More life and I'm toastin' to myself (self)
And ain't even my birthday
Slayin' in this dress, I give em hell
Goin' up on a Thursday
You try so hard to prove that you're happy (that you're happy, now)
So take a bow and let them hand clap, babe
While I laugh

I just wave
I just wave
I just wave
I just wave
'Cause what you thought it was ain't a damn thing
I just wave
I just wave (I wave)

Positive vibes only
Bullshit away
Positive vibes only
Bullshit away
Positive vibes only
Bullshit away
Positive vibes only
Bullshit away

I just wave
I just wave (it's so funny to me, so I just wave)
I just wave
I just wave (like the ocean's waves)
'Cause what you thought it was ain't a damn thing
I just wave (I wave)
I just wave (I wave)
I just wave
I just wave
I just wave
I just wave

'Cause what you thought it was ain't a damn thing
I just wave
I just wave (I wave)
