

# One Of Them Ones

Krizz Kaliko

One time, Kali Baby  
Two times, Big Ben (Okay)  
Three times, Kansas City stand up, yeah  
Definitely one of them

Ones, ones (ones, ones, ones)  
See they pretend, but know that they fakin'  
They don't see the money we making  
We ain't asking for it, we take it  
Yeah, I'm one of them ones  
You can hear it when they mention me  
See I'm the one they pretend to be  
See the boss is what I'm meant to be  
Just keep your eyes open, you can see  
I'm one of them ones

Look, Kali Baby, Ah-ha! Hey!  
I never been a gangsta, you can still get it  
I never been a rock star, but I still live it  
Nobody gave me nothing, I was born with it  
So no thank yous up like dynamite, put my ankles in it  
Samuel Watson is my heritage  
He tells you can't even watch him if you stare at him  
If he fell he won't taste the bottom, God carries him  
Won't touch the hair on my chinny chin chin  
I'm daring 'em (give it to 'em!)  
And I'm taking the gloves off  
Do it with no vaseline, I'm taking the rugs off  
That means I'll put the pickle to 'em  
So if you a jellysickle-sucking mother (hey!, hey!)  
He know I'm talking to 'em (hey you)  
Kali the best, the best, the rest of 'em  
You don't wanna find out  
Ask Tech N9ne, I but puttin' their lights out  
And if you didn't know, you better run, nigga, run  
'Cause my tongue weighs a ton kill for fun and I'm one of them

Ones, ones (ones, ones, ones)  
See they pretend, but know that they fakin'  
They don't see the money we making  
We ain't asking for it, we take it  
Yeah, I'm one of them ones  
You can hear it when they mention me  
See I'm the one they pretend to be  
See the boss is what I'm meant to be  
Just keep your eyes open, you can see  
I'm one of them ones

One of them ones, I'm not the twos of fuse, refuse to lose  
Battling of a champion, standing like there's no move to do  
Rude, I don't mean to boast, but damn if I don't brag about it  
Work for everything my tags reflect it with the task amounted  
Thought before I tried, but now I die trying to get past this mountain  
I ain't lashing out  
And I ain't stuck and not at work  
Custom job they lay it down  
My sound of numbers sponsors

And yeah, I get cash wide spreads, some tumble dollars  
If that's ain't what it's been about then I guess I been wrong too long for  
a troubled conscience  
I don't puddle nonsense, I don't carry burdens  
My life is like a show, the Tyler Perry curtain  
And I'mma draw the shakey  
Feel the night and call the day  
'Round the clock connecting drops  
If not, I take it all the way  
Never had a handout, I was looking for that ball to play  
Can't be get the money and conquered all that tried to stall my way  
So what might work for me won't work for some  
I saw the special, remarkable, you know the type, they call it a one

Ones, ones (ones, ones, ones)  
See they pretend, but know that they fakin'  
They don't see the money we making  
We ain't asking for it, we take it  
Yeah, I'm one of them ones  
You can hear it when they mention me  
See I'm the one they pretend to be  
See the boss is what I'm meant to be  
Just keep your eyes open, you can see  
I'm one of them ones

Yeah, slow down  
Now that I'm in my seat  
I see the paper boy street  
Never catch me sleeping  
Y'all the reason I stay on my feet and

Ones, ones (ones, ones, ones)  
See they pretend, but know that they fakin'  
They don't see the money we making  
We ain't asking for it, we take it  
Yeah, I'm one of them ones  
You can hear it when they mention me  
See I'm the one they pretend to be  
See the boss is what I'm meant to be  
Just keep your eyes open, you can see  
I'm one of them ones
