

Flyin' High

Krokus

Last night at the final shootdown
You and me in the silverlight
Always knew the time would come for gettin' off the ground
Up and away into the dark blue night

Leavin' troubles behind
Just a love divine

Flyin' high in a rock'n'roll spaceship
Flyin' high to the end of the sky
Flyin' high, a stratosphere round trip
No reply , just flyin' too high

Deep down on earth, the same bloody mess
No use to try and start a change
We stopped to serve as the pawns in the chess
Heavy Metal pulls us out of the reins

Leavin' troubles behind
Just a love divine

Flyin' high in a rock'n'roll spaceship
Flyin' high to the end of the sky
Flyin' high, on a stratosphere round trip
No reply , just flyin' too high

Flyin' high in a rock'n'roll spaceship
Flyin' high to the end of the sky
Flyin' high, on a stratosphere round trip
No reply , just flyin' too high
