

# Freedom

Kygo

I was living a lie, living a lie  
This is my confession  
I was living a lie before we met  
There were so many nights, so many nights  
Full of dark temptation  
There were so many nights that I regret

You give me something that I can hold onto  
A little light when I'm down on my knees  
I was so lost in myself when I found you  
But in that moment you made me believe

You give me freedom, freedom  
Freedom I've been looking for  
Freedom, freedom is you  
You give me freedom, freedom  
Freedom I've been looking for  
Freedom, freedom is you

You give me freedom-dom  
Freedom, freedom  
You give me freedom-dom  
I've been looking for  
You give me freedom-dom  
Freedom, freedom  
You give me freedom-dom  
I've been looking for

You give me freedom-dom  
Freedom, freedom  
You give me freedom-dom  
I've been looking for  
You give me freedom-dom  
Freedom, freedom  
You give me freedom-dom  
I've been looking for

I didn't care  
I didn't care enough to stop me falling  
I didn't care about myself  
Till you lifted me up  
Lifted me up when I was down and out  
It's the highest I have ever felt

You give me something that I can hold onto  
A little light when I'm down on my knees  
I was so lost in myself when I found you  
But in that moment you made me believe

You give me freedom, freedom  
Freedom I've been looking for  
Freedom, freedom is you  
You give me freedom, freedom  
Freedom I've been looking for  
Freedom, freedom is you

You give me freedom-dom

Freedom, freedom  
You give me freedom-dom  
I've been looking for  
You give me freedom-dom  
Freedom, freedom  
You give me freedom-dom  
I've been looking for

You give me freedom-dom  
Freedom, freedom  
You give me freedom-dom  
I've been looking for  
You give me freedom-dom  
Freedom, freedom  
You give me freedom-dom  
I've been looking for

You give me freedom, freedom  
Freedom I've been looking for  
Freedom, freedom is you
