

A Song for the Love in Summer

Kyla

Though I've missed you for long
Still the time hadn't changed my song
In summertime we'll be together again
Though I've missed you for long
Still the time hadn't changed my song
In summertime we'll be together again

Summertime
And I'll be there again
I'll be there again
With you
Though we've been apart
Not quite for long my love
Not quite for long my love
We've shared the joy
Dreaming, scheming, fearless illusions together and
Summertime

Though I've missed you for long
Still the time hadn't changed my song
In summertime we'll be together again
Though I've missed you for long
Still the time hadn't changed my song
In summertime we'll be together again

Summertime
And I'll be there again
I'll be there again
With you
Though we've been apart
Not quite for long my love
Not quite for long my love
We've shared the joys
Dreaming, scheming, fearless illusions together and
Summertime

Though I've missed you for long
Still the time hadn't changed my song
In summertime we'll be together again
Though I've missed you for long
Still the time hadn't changed my song
In summertime we'll be together again

Though I've missed you for long
Still the time won't change my song
In summertime we'll be together again
Though I've missed you for long
Still the time won't change my song
In summertime we'll be together again

Summertime
I'll be there again
I'll be there again
With you
