

# What If I

Kyla

I think that she's hurt you back  
I think that it's really sad  
That she's made a cynic of you now  
If you'd let me try  
I think that could change your mind  
And show you what true love's all about

I know what you're going through  
Take your time, I'll be here for you

You say you'll never be ready for love  
You say that you have had enough  
But, oh what if I, oh what if I  
Could love you forever

Say you can't afford anymore  
To have your heart broken like before but  
(So what if I) what if I (what if I) what if I  
(What if I) was the one you needed all the time  
What if I told you I'd make you forever mine  
(What if I, what if i)

I don't believe at all  
You'd rather be all alone  
'Cause I know just what you're looking for  
Someone who'll stand by you  
Whatever life takes you through  
And be there for you, forevermore

I know what you're going through  
Take your time, I'll be here for you

You say you'll never be ready for love  
You say that you have had enough  
But, oh what if I, oh what if I  
Could love you forever

Say you can't afford anymore  
To have your heart broken like before but  
(So what if I) what if I (what if I) what if I  
(What if I) was the one you needed all the time  
What if I told you I'd make you forever mine

What if there's a reason that I have come into your life  
Just when you needed a friend  
You have got to open your mind, maybe now is the time  
You're about to find a love that'll never end  
Never end, yeah

You say you'll never be ready for love  
You say that you have had enough  
(What if I) what if I (what if I) what if I  
[?]

Say you can't afford anymore  
To have your heart broken like before but  
(What if I) what if I (what if I) what if I

(What if I) Tell you I was the one you needed all the time  
What if I told you I'd make you forever mine  
What if I told you I'd make you forever mine  
What if I...
