

Queenie

L.A. Guns

Well I'm driving down the parkway
Too many miles an hour
Money burning in my pocket
I'm running on raw power
Gonna see my queenie
We're gonna light up the town

Go little queenie
I wonder what you're gonna wear
Something tight to please me
I love how you just don't care
Gonna give the wheels another spin tonight
And with a little bit of luck
I'm gonna make out all right

You want love then I'm your man
I'll give it to you any way that I can
I'll be the one you call to at night
Well alright

And in the morning light
You're gonna cry more, more, more, more, more more more...

Hey little sister
I like the way that you dance
I've been waiting all week
And I think tonight's my chance
She's a devil of a woman in a tight black dress
Marilyn Monroe with a tattoo on her chest

You want love then I'm your man
I'll give it to you any way that I can
I'll be the one you call to at night
Well alright

And in the morning light
You're gonna cry more, more, more, more, more more more...

You want love then I'm your man
I'll give it to you any way that I can
I'll be the one you call to at night

You want love then I'm your man
I'll give it to you any way that I can
I'll be the one you call to at night
Well alright

And in the morning light
You're gonna cry more, more, more, more, more, more, more, more, more
, more, more more more...
