LAB

I'm perfect, everybody likes me,
I just need someone to blame,
I'm lovely, I do all I'm asked to,
I have so much to revenge...

And only you can force out the worst in me
babe you are just hardcore

I'm evil, I deserve your hatred,
I need someone to put down...

And only you can force out the worst in me
babe you are just hardcore...
And only you can force out the worst in me
babe you are just hardcore...

And only you can force out the worst in me
babe you are just hardcore...
And only you can force out the worst in me
babe you are just hardcore...
And only you can force out the worst in me
babe you are just hardcore...
