

Machine Girl

LAB

Machine Girl - she really tried but years went rushing by
she wished to stop but never had the time

Machine Girl - she tried to say but not a sound came out
she always wished her luck would come around

And soon she won't feel a thing
and really soon she won't feel a thing

Machine girl, she really tried but never had the time
to stop to think things over and decide
to read those thoughts of hers, make up her mind
