

Hope is here

Lacrimas Profundere

I'm
Just a moment in time
Yesterday is black, tomorrow is blind
Could I start dreaming again?
It makes me understand
How you can fly

Hope is here
Hope is here
Hope is...

You
Are a slave to yourself
In a war of today
That turns wrong in the end
I feel like freedom is mine
And the past is consigned
I close my eyes

Could I start dreaming again?
Could I start dreaming?
