Shot in his eyes, a silver sky,

G5 F5

his blood is in my hands (in my hands)
I blessed this one, I know he's died
But now I'm feeling so strange

I know
You'd better believe
That everything you do
You can't understand it
Or ever justify
I don't want to be you guide
But stay with me and think for a while
Again

A C G F

The secret belong to a part of me And it's my anger and my pain Just close my eyes and live your life Your tears are so sweet for me

Loosing my life A matter of time Refusing all this game

I blessed this one I know he's died But now I'm feeling So strange

I know

I can't understand this joy inside of me You can't understand me or ever justify

I just cannot be your guide

Just stay with me and think for a while ${\bf Again}$

The secret belong to a part of me Increase my anger and my pain Just close my eyes and live your life Your tears are so sweet for me

Stay with me
I'll take you into another world
I'll bring your heart into another world

The secret belong to a part of me Increase my anger and my pain Just close my eyes and live your life Your tears are so sweet for me
