

Whisper

Lacy J. Dalton

Whisper 'I need you' to her
Take her far from the crazy old crowd
Take her, love her
Where she's the only one allowed
Whisper 'I love you' to her
Make her feel like the woman she is
Soothe her, remember
A thousand words leavin' a kiss
Whisper to your woman once in a while
'Cause all the sweet, sweet nothing's
Whispered in her ear
Will make her smile
She may be liberated
She'll like your style
So whisper to your woman
Once in a while
Whisper to your woman
Take it from me
And when you need her love
She'll give herself to you so easily
She'll be tender
She'll surrender and then
It's time to whisper to your woman
Once again
Whisper 'I need you' to her
Take far from the crazy old crowd
Take her
