

# Look What I Found

Lady Gaga

One, two, three

I'm alone in my house  
I'm out on the town  
I'm at the bottom of the bottle  
I'm there knockin' them down

I can't get back up on my feet  
See the lights all on the streetlights stars

But look what I found  
Look what I found  
Another piece of my heart  
Just laying on the ground

On a dull foggy day  
I'm looking for a light  
And my only prayer  
Is working tonight

I can't get myself out of bed  
Hear these voices in my head like a song

But look what I found  
Somebody who loves me  
Look what I found  
Somebody who'll carry  
Around a piece of my heart  
Just laying on the ground

When I met you I was blown to pieces  
Heart all over the floor  
Ever since you put me back together  
I can't believe it, can't believe it, oh

Look what you found, yeah, baby  
Look what I found  
Someone who'll carry around a piece of my heart  
Look what I found, woo, c'mon  
Look what I found  
Somebody who loves me  
Look what we found  
Someone who'll carry around a piece of my heart, heart  
Just laying on the ground
