

# Tower of Glass

Ladytron

I only came here for the view  
A stowaway in an elevator  
Half a step ahead of you  
And far faster than the flight of a scream

Reverse shadow, dim lantern  
I'm your favourite apparition  
Which makes your ears and fingers burn  
I am your amnesiac kingdom

Falling from your tower of glass  
Falling from your tower of glass  
Falling from your tower of glass

Tower of glass  
Tower

Spell turned on a sorcerer  
An inland sea swept up below you  
And rose with every passing hour  
Until there was only one way to fall

Falling from your tower of glass  
Falling from your tower of glass  
Falling from your tower of glass

Falling from your tower of glass  
Falling from your tower of glass  
Falling from your tower of glass

Climbing your tower of glass (Climbing, climbing)  
Climbing your tower of glass (Climbing, climbing)  
Climbing your tower of glass (Climbing, climbing)  
Climbing your tower of glass (Climbing, climbing)  
Climbing your tower of glass  
Climbing your tower of glass
