## **Midnight Strikes**

Dark it's oh so dark Fear comes creepin The nightmares bout to start

Steps, its him again He's got that hunger, she can't comprehend

Hush now, you need to hush now He whispers "look who's coming now"

Midnight strikes in the darkest night of her life, she cries All her dreams are dyin' Midnight strikes in the darkest night she's in tears She hears a million angels screamin' in pain

A child she's just a child But that dont stop his mind from runnin' wild

Cold she's oh so cold So helpless as evil unfolds

Hush now, you need to hush now He whispers "look who's coming now"

Midnight strikes in the darkest night of her life, she cries All her dreams are dyin' Midnight strikes in the darkest night she's in tears She hears a million angels screamin' in pain

Midnight strikes in the darkest night of her life, she cries All her dreams are dyin' Midnight strikes in the darkest night she's in tears She hears a million angels screamin'

Midnight strikes in the darkest night of her life, she cries All her dreams are dyin' Midnight strikes in the darkest night she's in tears She hears a million angels screamin' in pain
