

# White Dress

Lana Del Rey

Sun stare, don't care with my head in my hands  
Thinking of a simpler time  
Like Sun Ra, feel small  
But I had it under control every time

When I was a waitress wearing a white dress  
Look how I do this, look how I got this  
I was a waitress working the night shift  
You were my man, felt like I got this  
Down at the Men in Music Business Conference  
Down in Orlando, I was only nineteen  
Down at the Men in Music Business Conference  
I only mention it 'cause it was such a scene  
And I felt seen  
Mm-mm-mm-mm-mm

Summer, sizzling  
Listening to jazz out on the lawn  
Listening to White Stripes when they were white-hot  
Listening to rock all day long

When I was a waitress wearing a tight dress handling the heat  
I wasn't famous, just listening to Kings of Leon to the beat  
Like look at how I got this, look how I got this  
Just singing in the street  
Down at the Men in Music Business Conference  
I felt free 'cause I was only nineteen  
Such a scene

Summer, summer's almost gone  
We were talking about life, we were sitting outside 'til dawn  
But I would still go back  
If I could do it all again, I'd fly  
Because it made me feel, made me feel like a god  
'Cause it made me feel, made me feel like a god  
Somehow it made me feel, made me feel like a god

When I was a waitress wearing a white dress  
Look how I do this, look how I got this  
When I was a waitress working the night shift  
You were my man, felt like I got this  
Down at the Men in Music Business Conference  
Down in Orlando, I was only nineteen  
Down at the Men in Music Business Conference  
I only mention it 'cause it was such a scene  
And I felt seen  
Mm-mm-mm-mm-mm

When I was a waitress wearing a tight dress  
Like, look how I do it, look how I got this  
I was a waitress wearing a tight dress  
Like, look how I do this, look how I got this  
It made me feel, made me feel like a god  
It kinda makes me feel, like maybe I was better off  
'Cause it made me feel, made me feel like a god  
It kinda makes me feel, like maybe I was better off
