

Under the Sun

Lana Lane

It's raining this morning
Dark shadows upon the window
I wonder what thunders in you

Under the sun - it's shinin' through the rain
Prince of the weeping sky wash your tears away

It's raining this morning
The sunlight is breaking through
Four seasons, a beacon of blue

Under the sun - it's shinin' through the rain
Prince of the weeping sky wash your tears away
Under the sun - leave all your yesterdays
Light up tomorrow's sky - wash the tears away

I've a sudden premonition
Underneath a velvet sky
Yesterday is superstition
Don't let tomorrow pass you by

Under the sun - it's shinin' through the rain
Prince of the weeping sky wash your tears away
Under the sun - leave all your yesterdays
Light up tomorrow's sky - wash the tears away
