

Stop Time

Landon Austin

Tonight I'll be waiting for you babe
Come and see, we'll start little thing
We'll hide and seek
If you wanna have some fun, find me
Make a wish, I'll give you anything
For just one kiss
There's nothing out there
that you don't eclipse
Could someone so perfect like you exist

Let your heart come out
Run away with me
We could dance all night
If you'd stay with me
Where the stars never fade
And the sun won't rise
We can live while we're young
For ever tonight
We can stop time, stop time
Maybe we can stop time, stop time
Maybe we can stop time, stop time
Maybe we can stop time, stop time

You and me
Can be anything we want to be
Let's be fearless baby
Let's be free
Take and we can feel eternity, eternity...

Let your heart come out
Run away with me
We could dance all night
If you'd stay with me
Where the stars never fade
And the sun won't rise
We can live while we're young
For ever tonight
We can stop time, stop time
Maybe we can stop time, stop time
Maybe we can stop time, stop time
Maybe we can stop time, stop time

There's something in your eyes
It makes the clock stop
There's something in your smile
It takes me to the top
There's something in this moment
There's no letting go
Just come a little closer
We can take it slow
We can take it slow

Let your heart come out
Run away with me
We could dance all night
If you'd stay with me
Where the stars never fade

And the sun won't rise
We can live while we're young
For ever tonight
We can stop time, stop time
Maybe we can stop time, stop time
Maybe we can stop time, stop time
Maybe we can stop time, stop time

Come a little closer
We can take it slow...
