

Please Need Me

Lapko

I don't need you anymore
Needs keep changing back and forth
I was told about arrangements
I was told about reform
Ten year - and all in vain

I was irreplaceable
Before I got fired
I didn't fuck up, No
I did nothing quite wrong
They just picked me up from a row

Take a look at me
Please need me
And everything is beautiful
Please, Need me
And I could be so beautiful

Like trash
I was thrown away
At the time I got fired
I didn't fuck up, No
I did nothing quite wrong
They just picked me up from a row

I have two ears to get it in
But only this single life for living
