I don't know what is going on
You turn around and touch my heart
A silent moment speaks the truth
Something has happened all at once
It should have scared me in advance
But I was falling in those eyes of yours
And so
Fear was gone
I knew there was nothing else
I'd ever want

I know you You're not from here I've waited for you to appear To take my breath away And make me weep You're not from here Not from this here and now Just a touch of yours And I fly... and I fly... and I fly I can't get used to missing you If this is how it's gotta be I need an angel to watch over me No one can hold the hands of time But I can hold you in my mind Over and over like a melody For now I'll stand still For now I'll be filled by the memory of your skin I know you You're not from here You don't belong to lies and tears The greatness of your soul Makes me weep You're not from here Not from this here and now Just a touch of yours And I fly... and I fly... and I fly
