

I Could Give You Love

Lasse Lindh

This ship is wrecked.
The cliffs came so fast
I just closed my eyes
But you closed your heart
I could give you love
I could give you love
I could give you love

If you let me in

I wish you could see
See the world like me
We could stop the rain
Oh, it's such a shame
I could give you love
I could give you love
I could give you love

If you let me in
If you let me in
If you let me in
Oh~

You never lost me
You never lost me
You never lost me
You never lost me
You never lost me
You never lost me
Ah~ ah~ I'm still yours
I could give you love
I could give you love
I could give you love
If you let me in

Oh, you're beautiful
An angel's scar
But you've broken all the mirrors
Because you lost your faith
I could give you love
I could give you love
I could give you love
If you let me in
