

I'm trying to figure out
Why we're still living in this snake-bit town
Some say we'll be alright
But they're still trying to set the world on fire

They wanna change the way we live today
Integrate
Sometimes they make me want to run away
Run...

I need you to tell it to me straight, baby
Why you trying to throw it all away?
Yeah, the things you do are really not ok
You're f*cking me up

You ever feel your soul unwind
Just let the rhythm take over your mind
This kinda system don't treat you kind
They play with people like they're rolling dice

Let's change the system make them run away
Run...

I need you to tell it to me straight, baby
Why you trying to throw it all away?
Yeah, the things you do are really not ok
You're f*cking me up
You're f*cking me up
You're f*cking me up

You gonna let it go to waste
I need you to tell it to me straight, baby
Why you trying to throw it all away?
Yeah, the things you do are really not ok

You're f*cking me up
You're f*cking me up
You're f*cking me up
