

# Let Me Cry

Laura Marano

I know I'm being irrational  
Right now a little bit flammable  
So you'd better watch out (Watch out)  
I know I'm dressing so casual  
In my bed, laying diagonal  
'Cause I'm all alone now (Right now)

In three words  
My heart hurts  
So why do I feel it in my whole body?  
All over  
It's the worst  
Feeling down has just become a hobby

I'll stand on my feet, but not today  
I'll hit delete, throw it all away  
I'll be so sweet right to your face  
But when you leave, just let me cry, get it all out, baby  
I'll be alright, just gotta play  
A little on night and throughout the day  
I'll pick myself up, but not today  
Today I'm a mess, just let me cry, get it all out, baby

Boy, you're not even emotional  
Out every night, uncontrollable  
How do you do it? (How?)  
Why do you post everything you do?  
Is it 'cause you want me to know the truth?  
You're doing better (Better than me)

In three words  
My heart hurts  
So why do I feel it in my whole body?  
All over  
It's the worst  
Feeling down has just become a hobby

I'll stand on my feet, but not today  
I'll hit delete, throw it all away  
I'll be so sweet right to your face  
But when you leave, just let me cry, get it all out, baby  
I'll be alright, just gotta play  
A little on night and throughout the day the day  
I'll pick myself up, but not today  
Today I'm a mess, just let me cry, get it all out, baby

Get it all out, baby  
Get it all out, baby  
Just let me kick, let me scream  
Just let me kick, let me scream in my pillow  
Just let me get, catch you out (Let me get you out)  
Just let me get, get you out of my system

I'll stand on my feet, but not today  
I'll hit delete, throw it all away  
I'll be so sweet right to your face  
But when you leave, just let me cry, get it all out, baby

I'll be alright, just gotta play  
A little on night and throughout the day the day  
I'll pick myself up, but not today  
Today I'm a mess, just let me cry, get it all out, baby
