

# Not Like Me

Laura Marano

Take a chance  
Take my hand  
Maybe make it more than a glance

Loss of words  
Where do we begin  
Maybe introduce me to your girlfriend

Call a car  
So we can talk  
She can drive, and we can walk

She seems nice  
You got good taste  
It's so not like me to get in the way

I know I don't  
Know what I'm doing  
Pulse beating a light year a minute

Sparks fly and I'm  
Electrocuted  
So not like me to do this

My heart don't have a clock  
So it can't tell when the timing's off  
I know it's not very likely  
But not trying is not really like me

Woah oh oh oh oh oh  
It's so not like me  
Woah oh oh oh

We're alone  
Let's take it slow  
Take some time to get to know

Who I am  
And where I stand  
All my past and all my plans

Your stupid charm  
Shows who you are  
You don't wanna break my heart

Before we start  
Something's gotta end  
Mister, you don't wanna meet my boyfriend

I know I don't  
Know what I'm doing  
Pulse beating a light year a minute

Sparks fly and I'm  
Electrocuted  
So not like me to do this

My heart don't have a clock  
So it can't tell when the timing's off  
I know it's not very likely  
But not trying is not really like me

Woah oh oh oh oh oh  
It's so not like me  
Woah oh oh oh

Just breathe and let it go  
Forget the obstacles  
So you know, this is so not like me

This is not a game  
It doesn't happen everyday  
I really hope that you don't not like me

I know I don't  
Know what I'm doing  
Pulse beating a light year a minute

Sparks fly and I'm  
Electrocuted  
So not like me to do this

My heart don't have a clock  
So it can't tell when the timing's off  
I know it's not very likely  
But not trying is not really like me

Woah oh oh oh oh oh  
It's so not like me  
Woah oh oh oh

Take a chance  
Take my hand  
Maybe make it more than a glance

Loss of words  
Where do we begin  
Maybe you could make me your girlfriend
