

Santa Brought Me You

Laura Marano

Is it me or just the holidays
'Cause I've been feeling kinda strange
Maybe I'm just fallin' like the snow
Warm blankets and mistletoe
Not something I've been looking for
But maybe I'm just falling like the snow

This isn't something I would normally do, but
I guess this season's got me falling for you

I asked for
All the toys, all the goodies
I left out
All the treats, all the cookies
For Santa
I wanted expensive things and diamond rings
But Santa brought me
Something that was much more true
I sent all my wishes in a letter
But that Santa, he knew better
'Cause he brought me you

The North Pole got my Christmas list
Told me I'm no longer a little kid
So they're bringing me something different this year, ooh

And I can't lie, I thought they might
Santa's on his sleigh tonight
'Bout to spread some love and Christmas cheer, oh

This isn't something I would normally do, but
I guess this season's got me falling for you

I asked for
All the toys, all the goodies
I left out
All the treats, all the cookies
For Santa
I wanted expensive things and diamond rings
But Santa brought me
Something that was much more true
I sent all my wishes in a letter
But that Santa, he knew better
'Cause he brought me you
(Santa brought me) you, you
(Santa brought me) you, you
(Santa brought me) you
I sent all my wishes in a letter
But that Santa, he knew better
Because he brought me you
