

I Miss You

Laura Veirs

I miss you it's true
But there's nothing that I can do
Except play for you this tune
Sound waves through the ocean blue

What does your heart feel?
What do your eyes see?
I see a gorgeous woman
Looking right at me
I want to know her
You're so far away
She's right here
I'm forgetting your face
You're so far from this place

I miss you it's true
But there's nothing that I can do
Except play for you this tune
Sound waves through the ocean blue

Just let me be here
I need some time alone
Away from negotiations
On the telephone
I deeply miss you
But I deeply want you
And I have to tell you
I want her too
I want her too

I miss you it's true
But there's nothing that I can do
Except play for you this tune
Sound waves through the ocean blue
