

Language

Leah McFall

For, for I was in love with you
For, or [?] with you
You speak to me in harmonies, melodies
Love will be a language
All I can speak is you and me (you and me, you and me)

All I can speak is you and me, a secret language
Ain't no words could translate this foreign love
All I can speak is you and me, a secret language
I'm so dumb with languages
I love every little thing you say, say, say, say
Every little thing you say, say, say, say
You're the only one I don't need to translate
Every little thing you say, say, say, say

You said sanctuary, you don't need no translation for love, no...
You said sanctuary, you don't need no [?] to think of
Sweet sense [?]
You speak to me in harmonies, melodies
Love will be a language
All I can speak is you and me

All I can speak is you and me, a secret language
Ain't no words could translate this foreign love
All I can speak is you and me, a secret language
I'm so dumb with languages
I love every little thing you say, say, say, say
Every little thing you say, say, say, say
You're the only one I don't need to translate
Every little thing you say, say, say, say

Your words are (whoof)
Your words
Swallow, swallow
Your words are (whoof)
Your words
Swallow

Every little thing you say, say, say, say
Every little thing you say, say, say
All I can speak is you and me

Foreign love
All I can speak is you and me, a secret language
Ain't no words could translate this foreign love
