

## Give You More

Ledisi

Baby, I read you like a book  
I see the right in all the world  
I see behind the look you gave me  
You need something better  
That could be so much better now

Just let me raise the bar  
I bet you didn't know it'd raise so far  
Oh, so many times they missed the mark  
You need a change, baby

I'm gonna give you more than that, again  
I'm gonna give you more than that, ooh yeah  
You've been wasting your nights, can't be satisfied  
I'm gonna give you more

Baby, why settle for what you like  
When you can find love?  
Come with me tonight, I'll show you  
Where the grass is truly greener  
I'll take you places never seen before

Just let me raise the bar  
I bet you didn't know it'd raise so far  
Oh, so many times they missed the mark  
You need a change, baby

I'm gonna give you more than that, again  
I'm gonna give you more than that, ooh yeah  
You've been wasting your nights, can't be satisfied  
I'm gonna give you more

Did you know? Could you tell [?]  
You deserve something as real as you are

I'm gonna give you more than that, again  
I'm gonna give you more than that, ooh yeah  
You've been wasting your nights, can't be satisfied  
I'm gonna give you more
