

It's Christmas

Ledisi

I lay at night and wonder, will you be here by Christmas
Though you're far away from me, I still need you near me
What will it take for you to know, I want you here with me
What will I have to do to show, I need you here with me
This Christmas, could be the one that I get to hold you
This Christmas, could be the one that I get to hold you
Hold you

I decorate the tree and hope you'll be here by Christmas
I wish that I could touch your face and tell you I love you
How do I smile and hide the pain, I miss you holdin' me
Don't let this Christmas be the same, I need you with me
This Christmas, could be the one that I get to hold you
This Christmas, could be the one that I get to hold you
(Hold you)

Yule tide at Christmas seems so lost without you here with me
Baby this time, my wish will finally comfort me
So every year, just prepare this Christmas just might be, the o
ne
That you'll be home to share this Christmas with me
This Christmas, could be the one, that I get to hold you
(Hold you)

This Christmas, could be the one, that I get to hold you
This Christmas, could be the one, that I get to hold you
(Hold you)
This Christmas, could be the one, that I get to hold you
This Christmas, could be the one, that I get to hold you
(Hold you)

This Christmas, could be the one, that I get to hold you
This Christmas, could be the one, that I get to hold you, hold
you
This Christmas could be the one that I get to hold you
