

# Love Never Changes

Ledisi

If I could change my world  
Things would be the same  
There would still be love and pain  
'Cause without it I would never change

If I took back all the loving that made me cry  
Would I ever realize  
That I'm growing from mistakes that I made  
To make me change?

Love, it will never go  
Love, even when you go  
It never leaves, no, no  
Love never changes, love

Love, it will never go  
Love, even when you go  
It never leaves  
Love never changes, love

That's why I know  
All of this is clear to me  
Love is for eternity  
That's the way God wanted it to be

So I've learned time don't stay still or move fast  
Nothing stays the same but love lasts  
And I can't keep living in the past  
I gotta change

Love, it will never go  
Love, even when you go  
It never leaves  
Love never changes, love

Love, it will never go  
Love, even when you go  
It never leaves  
Love never changes, love

Love never changes  
Love won't leave  
Love never changes  
You have to believe when it's love  
Love never changes, love

Love never changes  
Love never leaves  
Love is so graceful  
You gotta believe when it's love  
Love never changes, love

Love, it will never go  
Love, even when you go  
It never leaves  
Love never changes, love

Love, it will never go  
Love, even when you go  
It never leaves  
Love never changes, love
