

## Now or Never

Ledisi

Day after day after day it's the same old thing  
I sit here wondering why I'm still wearing your ring  
And to tell the truth, boy, I just don't know why  
And instead of leaving I just live the lie  
But it's time to say goodbye

'Cause it's now or it's never  
I can't do this forever  
I can do so much better  
It's time to leave it all behind  
'Cause it's now or it's never  
Boy you're really not clever  
I deserve so much better  
It's time to leave this all behind

So many reasons and things that were never explained  
And night after night after night I'm still hearing that name  
And I don't need proof 'cause I'm already sure  
You're no longer mine and I'm no longer yours

'Cause it's now or it's never  
I can't do this forever  
I can do so much better  
It's time to leave it all behind  
'Cause it's now or it's never  
Boy you're really not clever  
I deserve so much better  
It's time to leave this all behind

How many times did I say I was leaving?  
I always stayed 'cause you told me you needed me  
Won't play the fool any more, I'm through this time  
And I'm gonna be alright

'Cause it's now or it's never  
I can't do this forever  
I can do so much better  
It's time to leave it all behind  
'Cause it's now or it's never (now or never)  
Boy you're really not clever  
I deserve so much better  
It's time to leave this all behind (leave this all behind)

I gotta go  
Now or never  
Now or never  
Now or never, babe

It's now or never (now or never)  
It's now or never, babe (baby)  
It's now or never (I gotta go)  
It's now or never, babe (don't want you no more)  
It's now or never (made up my mind)  
It's now or never, babe  
Did it for you, stayed for you

It's now or never

It's now or never, babe (now or never)  
It's now or never  
It's now or never, babe (now or never)  
It's now or never (I gotta go)  
It's now or never, babe  
Do it for me, time to be free, I'm free

It's now or never  
It's now or never, babe  
It's now or never (now)  
It's now or never, babe  
It's now or never  
It's now or never, babe  
Ooh, aye, yeah yeah  
Now, right now, right now
