

# These Last Few Days

Lee Brice

These last few days  
What can I say  
You've had me thinkin' in circles  
In crazy not like me ways  
My favorite thing  
Lately has been waking up with you  
Talkin ourselves to sleep again

Baby come a little closer  
Let me lay some nibble kisses on your shoulder  
You said that's your favorite place  
Baby maybe we could borrow  
Find a way to bag and  
Steal a few tomorrows and stay  
Here in these last few days

These last few days  
Have blown me away  
The thought of letting go,  
And falling  
Is actually feeling okay  
I must confess  
I need some rest  
But with every touch  
I swear the better it seems to get

Baby come a little closer  
Let me lay some nibble kisses on your shoulder  
You said that your favorite place  
Baby maybe we could borrow  
Find a way to bag and  
Steal a few tomorrows and stay  
Here in these last few days

I aint lookin for love  
But whatever this is  
I can't get enough

Baby come a little closer  
Let me lay some nibble kisses on your shoulder  
You said that your favorite place  
Baby maybe we could borrow  
Find a way to bag and  
Steal a few tomorrows and stay  
Here in the last few days
