All Fall Down

Lee DeWyze

And if I were the world
I would stop turning
And if I were the trees
I would stop burning
And if I were the sky
I would fall down, down, down
Because what goes up must come...
We all fall down
We all fall down
We all fall down
We all fall down
Down, down, down, down, down, down

So many unhappy faces
In so many unhappy places
And if I were the king
Would anything change?
Because after time
Only the faces and the names are rearranged

And if I were the world
I would stop turning
And if I were the trees
I would stop burning
And if I were the sky
I would fall down, down, down
Because what goes up must come...
We all fall down
We all fall down
We all fall down
We all fall down
Down, down, down, down, down, down

And if I were the world
I would stop turn...
