

# Splash

Lee Kernaghan

It was summertime in the Riverina  
Took you down to the river in my red Cortina  
The seats were hot  
She started blowing steam

Parked in the shade by a lazy bend  
Got hotter when I took your hand  
Held on tight to that old rope swing  
We swung out high and both dropped in

Splash that time we jumped in  
Splash it was really something  
That just couldn't wait  
Girl we let go that summer day  
And fell in over our heads  
It took away our breath  
Falling free as you and me went splash

We towled off and I still remember  
Your kisses soft and tender  
And for a moment  
All the world was ours

We laid on a blanket by the water's edge  
Made memories I won't forget  
It was real and we both knew it  
We let go and we dived into it

Splash that time we jumped in  
Splash it was really something  
That just couldn't wait  
Girl we let go that summer day  
And fell in over our heads  
It took away our breath  
Falling free as you and me went splash

The summer left and you were gone  
But this river keeps rolling on  
I'm standing here  
And all I'm seeing is you

Splash that time we jumped in  
Splash it was really something  
That just couldn't wait  
Girl we let go that summer day  
And fell in over our heads  
It took away my breath  
Falling free as you and me went splash

Falling free as you and me went splash  
We made quite a splash
