The Outback Club

Lee Kernaghan

Works a 12 hour day from sun up til sun down He's doing what he can to make the wheels go round In a shed down the track he knows how to bend his back He's the soul of the earth he's got a heart of gold

He's a member of the out back club He don't back down and he dont give up He's living in the land he loves Born and raised he's a member of the outback club

She rides the boundry fences with the blokes She's a match for any man alive when she works the mob Before the job is done theres another just begun A kinda woman any man'd be proud of

She's a member of the out back club She don't back down and she dont give up She's living in the land she loves Born and raised she's a member of the outback club

Ho!

Works the field maybe just to bringing out the crop There out there working their fingers to the bone Might be jerking the stock or maybe working the mob They got one thing in common, the country heart and soul

Their members of the out back club They don't back down and they dont give up Their all living in the land they love Born and raised their members of the outback club

We're all members of the out back club We don't back down and we dont give up We're all living in the land we love Born and raised we're all members of the outback club We're all members of the out back club We don't back down and we dont give up We're all living in the land we love Born and raised we're all members of the outback club Yeah we're born and raised we're all members of the outback clu b
