

# Complicated

Leela James

Boy, something happens when we get together  
You're giving me joy, a feeling that's forever  
Baby, you know what to do when  
We get, round each other, it's magnetic, ooh  
I want you, so what are we waiting for

What we gon' do, don't make this complicated  
You know you want it too, you know that I've been waiting, baby  
What we gon' do, don't make this complicated  
So whatchu gon' do? You know I really want you

Ooh, I, I said I was your one and only  
If I gave every piece of my heart, what would you do?  
Whatchu want, whatchu need, boy, I got  
All this love and it won't ever stop  
So what we gonna do about it? Say you gon' be about it, ooh

What we gon' do, don't make this complicated  
You know you want it too, you know that I've been waiting, baby  
What we gon' do, don't make this complicated  
So whatchu gon' do? You know I really want you

I love you, I need you  
Baby, I've been waiting, waiting  
Baby, be mine  
I'll give all my love to you

What we gon' do, don't make this complicated  
You know you want it too, you know that I've been waiting, baby  
What we gon' do, don't make this complicated  
So whatchu gon' do? You know I really want you

What we gon' do, don't make this complicated  
You know you want it too, you know that I've been waiting, baby  
What we gon' do, don't make this complicated  
So whatchu gonna do?
