

Invisible

Leeland

They say what you see is you get
There's more to life than meets the eye
You don't believe what they don't understand
I've touched your hands I've felt your side

Close enough to whisper to hear my cry
In the light of morning in the dead of night

I see you standing in the wind and waves
I'm never alone your not invisible no
I see you walking from an empty grave
I'm never alone your not invisible no

You say to look for what I can not see
You are the light open my eyes
So many voices that are blinding me
I listen for your words of life

Close enough to whisper to hear my cry
In the light of morning in the dead of night

I see you standing in the wind and waves
I'm never alone your not invisible no
I see you walking from an empty grave
I'm never alone your not invisible no

I see you standing in the wind and waves
I'm never alone your not invisible no
I see you walking from an empty grave
I'm never alone your not invisible no

Close enough to whisper to hear my cry
In the light of morning in the dead of night

Close enough to whisper to hear my cry
In the light of morning in the dead of night

I see you standing in the wind and waves
I'm never alone your not invisible no
I see you walking from an empty grave
I'm never alone your not invisible no

I see you standing in the wind and waves
I'm never alone your not invisible no
I see you walking from an empty grave
I'm never alone your not invisible no

Your not invisible no...
