The Way Love Goes

oh whoa oh oh i never thought that i would ever love again i might be wrong cos i can feel it happening a little scared but i am not petrified i love forever, i promise to stay by your side heart broken, my first and never spoken i waited to hear and i gave it a year so i stopped holding on and then you came along and then you came along i'm gonna, i'm i'm gonna

i hold you, i love you the best that i can until you understand that i need you all in and i can't dance alone cos the beat's just too slow that's just the way love goes, that's just the way love goes (uh uh)

i use to think that i would never get to be in love again cos that was the only one for me and now i feel that you have come and saved me this heart of mine awoken by your smile heart broken, my first and never spoken i waited to here and i gave it a year so i stopped holding on and then you came along and then you came along i'm gonna, i'm i'm gonna

i hold you, i love you the best that i can until you understand that i need you all in and i can't dance alone cos the beat's just too slow that's just the way love goes, that's just the way love goes

i hold you, i love you the best that i can until you understand that i need you all in and i can't dance alone cos the beat's just too slow that's just the way love goes, that's just the way love goes

(gotta get strong, keep moving on) [x8]

someone's coming to save me someone's coming to save me save me, save me, save me

i hold you, i love you the best that i can until you understand that i need you all in and i can't dance alone cos the beat's just too slow that's just the way love goes, that's just the way love goes
