We are like pirates and we are comin' with the biggest ego We're gonna bring it down and give it to you, that's how we go We're gonna drop from the sky like a killer tornado

Here we are again my friends We're back in Vietnam Back in Vietnam We're back in Vietnam Back in Vietnam

We're gonna keep on riding `til the enemy's been severed Well never turn around, we don't care if it takes forever Men women children will die we're all in this together

Here we are again my friend We're back in Vietnam Back in Vietnam We're back in Vietnam Back in Vietnam

We're gonna fly over the world inside a giant eagle We do just what we want and don't care if it isn't legal We're on a horse that is high, we think we're so damn regal

Here we are again my friend
We're back in Vietnam
Back in Vietnam
