

The Difference Is Why

Lenny Kravitz

I'm just a human
I never said I was god
And each day I wonder where you are
How could our lives once be so together
Now we're apart
I know we can make it
But where do we start?
Sometimes the scales get unbalanced
Don't you know the reason why?

The difference is why
The difference is why

You say you can't trust me
Have you tried?
You say you don't love me
That's a lie
There are so many so many rainbows
That we were to climb
But baby baby why can't we survive?
We've got to get our heads untangled
And free our state of mind

The difference is why
The difference is why

Sometimes the scales get unbalanced
Don't you know the reason why?

The difference is why
The difference is why
Does this have to mean goodbye?
