Tunnel Vision

Lenny Kravitz

All I want, Is all you got Make me happy baby And I'll make it hot I don't need no doctor To tell me what to do 'Cause I know I'm goin' Straight ahead for you

I got that tunnel vision goin' through my head I can't help myself all I see is red Tunnel vision goin' through my head Lay me down inside your flying bed

All that's yours And all that's mine We'll put together baby And we can combine We don't need no lawyer Let's not make this long We just need a love thing That's beautiful and strong

I got that tunnel vision Goin' through my head I can't help myself all I see is red Tunnel vision goin' through my head Lay me down inside your flying bed

Tunnel vision goin' through my head I can't help myself all I see is red Tunnel vision goin' through my head Lay me down inside your flying bed Come on here ... yeah !

Tunnel vision goin' through my head I can't help myself all I see is red Tunnel vision goin' through my head Lay me down inside your flying bed

Tunnel vision goin' through my head I can't help myself all I see is red Tunnel vision goin' through my head Lay me down inside your flying bed

Make it funky now ahaha [4x] I'll gonna make it, make make it, Make it, make it make make it, Make it funky now ahaha [4x] I'll gonna make it, make make it, Make it, make it make make it, Make it funky now ahaha [4x]
