

When I'm far from home
I feel blurry
Where my weight is gone
There is nothing
Whenever I go wrong
I hear the same old song
Voices from below
I fear it never goes away

All I could do in the end was wait
Laying down with my faith
All I could do in the end was wait
United with my fears
I'll alleviate

The loop goes on and on
Until my mind is gone
Gone in circles
The barricades are strong
It's been that all along
Have to accept it
The tower can't be torn
Before the cape is worn
Losing control
(It's the only way of living)

All I could do in the end was wait
Laying down with my faith
All I could do in the end was wait
United with my fears
I'll alleviate

All I could do was wait
Laying down with my faith
All I could do was wait
Now I'll alleviate

All I could do was wait
Laying down with my faith

All I could do in the end was wait
Laying down with my faith
