

After He Takes Me Home

Lesley Gore

After he takes me home
I wonder does he think of me
I wonder does he dream of me
Does he think about how he kissed me
After he takes me home

I wonder when he walks away
Is he still wishing he could stay
On my mind, does he miss me (??)
After he takes me home

In my room, all alone
When I put out the lights
I keep dreaming about him
All through the night
Will he be my life time through

And make my every dream come true
When he does, we'll be up in heaven
After he takes me home
After he takes me home

I wonder when he walks away
Is he still wishing he could stay
On my mind does he miss me (??)
After he takes me home

Will he be my life time through
And make my every dream come true
When he does, we'll be up in heaven
After he takes me home
After he takes me home
