

## If That's The Way You Want It

Lesley Gore

You came along and made me fall  
Now I can't walk away  
I have no choice at all  
With you I've got to stay

You tell me that you aren't ready  
To settle down with one  
You want to keep me on a string  
While you're having fun

If that's the way you want it, so be it my love  
If that's the way you want it, so be it my love

Well the day may come when I'll be sorry, crying all alone  
Regretting that I let you break, the only heart I own

Well you came along and made me fall  
Now I can't walk away  
I have no choice at all  
With you I've got to stay

Right now, I'll settle for the kisses I share with others too  
and keep on praying that some day, you'll give me a love that's  
true
