

Disconnected

LeToya

We could be in the same room and not speak
Yeah
Sometimes I'll be watching you while you sleep
Yeah
I been feeling some kinda way lately I can't eat
And as of lately I feel you don't notice me

Tell me is it someone else
If it is I'm used to being by myself
I tried everything but nothing helps
So I think that it's best I left

'Cause we're disconnected
There's a big distance between us
We're disconnected
Ooh-oh-ooh-oh
We're broken and you don't even care

You and me was bigger than anything
Yeah
Hope you're happy with the decision you made
Yeah
Boy you were supposed to make me feel safe
But you didn't now I gotta go away

Tell me is it someone else
If it is I'm used to being by myself
I tried everything but nothing helps
So I think that it's best I left

'Cause we're disconnected
There's a big distance between us
Oh-ooh-oh-oh
We're disconnected
Ooh-oh-ooh-oh
We're broken and you don't even care

My heart I can't share no longer
You promised me you would be here
And beside you
You promised no one else would be there
Yeah
But we're disconnected
We're disconnected

I love you
