

Happy Ever After

Letters to Cleo

We'll have three Old Fashions then
I can think about things when
I'm calming down
And once my thoughts were crystal clear
Now I can't think at all and I fear
Somethings wrong
'Cause I read a story about her
And I wondered if she made your life
A happy ever after Happy ever after
I wish I was gravity
And I wish you'd never given me
What I'm coming down with
It's something bad
So I'll have three Old Fashions then
I can figure things out when
I'm calming down
And I want so much for myself
But I'm too down to think about it now
I'm such an odd disaster
I'm too down to think about it now
Happy ever after
Tell me what I did and tell me what you wanted
Because I only did what I thought you wanted
And I want so much for myself
But I'm too down to think about that now
I'm such an odd disaster
I'm too down to think about it now Happy ever after
